Plan for Musicultural Revolution

- ✚ 5 Family albums per 2.5 years, or 1 album per 6 months, at \$200,000 each.
- ✚ Each Family album accompanies a TODAYsho album, at \$2 million each.
- ✚ We will release a total of 20 records every 5 years, with projected sales in excess of 1 million units per Family album and 10 million units per TODAYsho album.

Open Source Healing Music – PMI & OuThink!

In the new revolutionary paradigm education is no longer understood as unidirectional. To enable the circular flow of knowledge proposed by popular educators like Paolo Freire and bell hooks through the medium of Healing Music—the primary mouthpiece of the anti-Silence pro-Passion movement called the True Healer Under Ground—a dynamic, highly futuristic delivery device is required. In a historical partnership between a software design firm and a record label, Passionate Music Infinite and OuThink Media present the extremely upgraded open-source freeware program SpinXpress (Passionate Music Edition).

SpinXpress combines several programs into one small, OS-universal, user-friendly, customizable, memory-saving system. Packaged in every PMI Enhanced CD, SpinXpress contains a simple music editing & multitracking platform (i.e. CoolEdit, SoundForge), a powerful converter for session files from every commercial- and professional-grade sound-editing program, a video editor with a step-by-step dance template for each song as we created it and blank ones for your own dances, and finally David Toole's revolutionary core program, the original SpinXpress – a peer-to-peer, wiki-inspired recorded-music-session sharing platform.
